## ABOUT ME

Now, I'm a senior student and want to practice the skills, technologies that I've learned. With self-learning and hard-working abilities, I expect to do great things at work.

## EDUCATION

University of Information Technology, VNU.  
GPA: 8.75 (currently)

## SKILLS

- HTML/CSS
- Javascript
- React, React Hook, React Redux
- NodeJs, Express
- MongoDB

## EXPERIENCE

### MINH PHU SOLUTION

8/2021 - 10/2021

- Technologies: ReactJS, NodeJS, ExpressJS.
- Responsible: Create documentation, then write a unit test for the website and create a module called "Recruit" for management recruitment by using ReactJs as a front-ent, NodeJs as a back-end, and manager database with MongoDB

## RESEARCH

### My Project

4/2021 - 5/2021

- Team size: 1, technologies: ReactJS, NodeJS, ExpressJS, React hook, MongoDB, Paypal API (payment), Heroku.
- Github: <https://github.com/ductoan212/amashoes>
- Demo: <https://amashoes.herokuapp.com/>

### SVHCM - TEAM'S PROJECT

8/2019 - PRESENT

- Team size: 4
- Technologies: ReactJS, NodeJS, ExpressJS, Typescript, Redux.
- Details: This is a personal project of the leader, but then he wants to expand team size, and I go to join with him. This project is a chat application for students. In the beginning, it has built with NodeJs and HTML, now we are improving it with a new UI by using ReactJs, and it's will release soon.
